# KeyRoutes

**KeyRoutes** are a convenient new way to carry smaller numbers of routes from your Track Access ComputerRoutes library. Easy to store and light weight USB keys allow you to carry your TA Route Learning Systems everywhere you go. Plug and Play into any computer or laptop using a USB. Systems can be loaded onto the key, and played via the Route Library program giving an easy access to the complete Driver Training Package, in a light weight format.

Key Routes are available in 2GB, 4GB, 8GB & 16GB formats

## FEATURES

- Easy to carry ComputerRoutes
- Moving map synchronisation with video
- Index and easy access to route information
- All normal video controls + full screen replay
- No setup or licensing
- Allows copy and paste to other applications
- Works on all Microsoft Windows PC's

*E learning for the future*
